

Bayhill Middle School Expansion: Now Serving Grades 7 & 8!

Empowering Diverse Learners

Bayhill Middle School Expansion: Now Serving Grades 7 & 8!

Bayhill is proud to announce the expansion of our program to include grades 7 and 8, starting in the 2025-2026 school year. Building on over a decade of success in providing a personalized, college-preparatory education for high school students with learning differences, Bayhill is now extending its proven approach to younger students.

A School Designed for Your Child's Success

At Bayhill, we believe that every student deserves the chance to thrive. Our innovative middle school program combines academic excellence with individualized support to create an environment where students can flourish both in and out of the classroom.

Our small class sizes ensure each student receives the attention they need, while our interconnected curriculum fosters deep understanding and intellectual curiosity. From reading and writing to executive functioning skills, we tailor our approach to meet the unique learning needs of every child.

Academic Excellence for Every Learner

Bayhill's middle school program is designed to meet students where they are, with a flexible, individualized approach that ensures each child has the opportunity to succeed:

Structured Literacy: We use the Orton-Gillingham approach to systematically build skills in reading, spelling, and comprehension. Small group and individual instruction helps students master phonemic awareness, decoding, fluency, and word study.

Focused Skill Building: For students who are not receiving structured literacy, we provide personalized instruction to improve vocabulary, study skills, and executive functioning.

Literature-Based English: Students engage with curated texts that promote inclusivity and connections across subjects like math, science, and history.

History and Science: Students study a two-year cycle of history, from the Middle Ages to the Civil War, and engage in hands-on science learning based on Next Generation Science Standards.

Math: Whether students are mastering foundational skills or accelerating to high school Algebra, we offer flexible math instruction tailored to individual needs.

"I highly recommend Bayhill High School in Berkeley. Our daughter is a first-year, and it has been transformative for her, academically and socially."

A Community That Cares

Bayhill isn't just a school, it's a community. With a strong peer mentoring program, students build meaningful relationships that last well beyond graduation. Our inclusive environment fosters a sense of belonging, helping each student feel connected, valued, and supported.

Why Choose Bayhill?

Bayhill's middle school program is the ideal environment for students with learning differences. Our proven, personalized approach helps students develop academically, socially, and emotionally, preparing them for high school and beyond.

If you're looking for a school where your child can truly thrive, Bayhill is the place for you. Visit us today and see how we can help your child reach their full potential!
